

Returns process and policies - Baker Hughes Digital Solutions

Includes returns for repair, calibration, upgrades, and credit.

Register for access, or Login if you are already registered.

Create a new Return Materials Authorization request (RMA), or check the status of your existing RMAs in the My Returns page.

This site supports Returns for these businesses:

- Panametrics - flow, gas, and process analyzers
- Waygate Technologies - inspection products
- Bently Nevada – condition monitoring
- Druck – pressure sensors (RMA Status only)

Overview

- This site lets you add items to a Returns Shopping Cart, provide details, and submit an order.
- Unless a product is obviously damaged, we recommend that you contact our **Technical Support** team before submitting an RMA for repair. In cases where the product is configured or installed incorrectly, our specialists will attempt to resolve the issue without requiring you to return the product.

Tech Support Contacts:

- Panametrics - Panametricstechsupport@bakerhughes.com
- Waygate - remoteservice@bakerhughes.com
- Bently Nevada - techsupport@bently.com
- Druck - drucktechsupport@bakerhughes.com

Hazardous exposure

- You must tell us if the products were exposed to any hazardous materials and provide details.
- Decontaminate any materials sent back to us, including any fluid inside the unit.

Warranty claims

- In-warranty returns will be repaired free of charge or, where non-repairable, replaced free of charge after technical analysis by Baker Hughes.
- Products damaged by misuse or abuse will be considered non-warranty events.
- Baker Hughes will have final determination of warranty eligibility.

Expedited service

- Some products returns can be expedited in an emergency. If required, please talk to our Customer Care team to see how we can support you.
- There is an extra charge to cover the costs of an expedite request. This charge varies with different product lines.

Returns for credit

Before requesting an RMA for a credit return, please ensure that all of the following criteria are met:

- Standard hardware and software only (i.e., no custom or modified products)
- Must be six months or less from date of invoice (or six months from delivery if part of a project installed by a Digital Solutions service team)
- Must be unused and in original packaging
- Do not combine sales orders on one RMA
- 25% minimum restocking fee

Cancellation

- Returns received without an RMA Return Label and the documentation required may be returned by Digital Solutions if the RMA documentation is not received within 30 days of receipt of the instrument or parts.
- Any quotation is based on the defects/details provided by customer. Additional defects identified during the evaluation stage will result in a revised quotation.
- If a part is submitted for calibration and has failed, a one-time fee may be assessed at the value of the quoted calibration. This fee will be waived if the customer decides to replace or repair the faulty equipment.
- Upon a requote, Baker Hughes Digital Solutions reserves the right to return product as received if the required documentation or updated authorization listed above is not forthcoming within 30 days of the requote. If that authorization is not received, DS reserves the right to scrap the product or send it back as is.
